Advances in Optics and Photonics

Access the largest collection of peer-reviewed optics and photonics content via OSA Publishing's Digital Library—which contains more than 350,000 articles from 18 publications, as well as conference papers across more than 700 proceedings.

▶ LEGACY.

For over 100 years, The Optical Society (OSA) has provided quality research, inspired interactions, and dedicated significant resources to support the global optics and photonics community.

▶ MOST ARTICLES AND CITATIONS.

OSA is proud that its collection of flagship, partnered, and co-published peer-reviewed journals continue to receive the most citations (40%) and publish the largest number of articles (33%) in the field of optics and photonics. (*2016 Journal Citation Reports*®, Clarivate Analytics 2017)

▶ HIGHEST QUALITY.

Scientists regularly turn to OSA's content to meet their research needs. In fact, since 1917, OSA has been publishing seminal research in optics and photonics, including the findings of thought leaders, Nobel Prize winners, and inventors who have changed the technological landscape in our field.

▶ GLOBAL REACH.

Uniting over 327,000 professionals from 175 countries, OSA brings together the global optics and photonics community through its publishing program. Our articles come from authors around the world, and our content is widely available through a global network of institutions and OSA's robust Open Access program.

NEW PRODUCTS FOR 2018

In 2018, OSA is partnering with SAGE Publishing to make the *Journal of Near Infrared Spectroscopy* (JNIRS) available to Optics InfoBase Premium customers. JNIRS is a peer-reviewed journal that publishes original research papers, short communications, review articles, and letters concerned with near infrared spectroscopy and technology, its application, new instrumentation, and the use of chemometric and data handling techniques within NIR.

See page 6 for more details.

PRODUCT CHANGES IN 2018

Journal of the Optical Society of Korea has changed its name to *Current Optics and Photonics* (COPP). The Journal is published in English by the Optical Society of Korea (OSK) and is made available on the OSA Publishing platform through its partnership with OSA.

See page 5 for more details.

Advances in Optics and Photonics

Advances in Optics and Photonics (AOP) publishes comprehensive review articles and tutorials appropriate for students, researchers, faculty, business professionals, and engineers. This authoritative journal covers advances in optics and photonics from fundamental studies to engineering applications.

Applied Optics

Applied Optics (AO) publishes in-depth, peer-reviewed articles related to applications-centered research in optical technology, lasers, photonics, environmental optics, sensing, and information processing. Articles concentrate on moving the potential of science and technology to practical applications and include the development and performance of technologies when applying theories.

Biomedical Optics Express

Biomedical Optics Express (BOEx) is OSA's principal outlet for serving the biomedical optics community with rapid, Open-Access, peer-reviewed papers related to optics, photonics, and imaging in the life sciences. The Journal's scope encompasses theoretical modeling and simulations, technology development, biomedical studies, and clinical applications.

Chinese Optics Letters

Chinese Optics Letters (COL) is one of the leading journals for optics in China. Published in English, the Journal promotes the generation, application, and archiving of knowledge in all fields of optics. COL is sponsored by the Chinese Optical Society and the Shanghai Institute of Optics and Fine Mechanics (SIOM) at the Chinese Academy of Sciences. COL is distributed outside of China by OSA.

Current Optics and Photonics

Current Optics and Photonics (COPP) is published in English by the Optical Society of Korea (OSK) and is made available through OSA Publishing in partnership with OSK. COPP was launched in February 2017 and was formerly the *Journal of the Optical Society of Korea* (JOSK). This Open-Access Journal publishes recent advances, state-of-the-art research and development results in all areas of optical science and technology.

ACCESS TO ALL OSA CONTENT

OSA offers two packages that include comprehensive coverage of the newest content published plus complimentary access to the extended backfiles for all titles.

The **Optics InfoBase** package provides access to 17 journals; OSA's magazine, *Optics & Photonics News* (OPN); and the conference proceedings from all of OSA's Topical Meetings. The **Optics InfoBase Premium** package offers access to the same content as the Optics InfoBase package plus articles published in the *Journal of Near Infrared Spectroscopy* (JNIRS), the conference proceedings from all of OSA's major meetings (FiO, CLEO, OFC), unlimited access to OSA's Optics ImageBank of more than 950,000 journal images, and access to Anthony Seigman's *Lasers* eBook, OSA's *Century of Optics* eBook, and 4 OPN Centennial eBooks.

E-COMBINATION PACKAGES

In addition to the two Optics InfoBase Packages, OSA offers four other online-only combination packages.

The **E-Combination 1** package offers access to select journals, including OSA's core titles. The **E-Combination 2** package includes the same titles as E-Combination 1 but also includes access to OSA's Optics ImageBank, which includes more than 950,000 images from OSA's core journal titles.

The **E-Combination 3 and 4** packages allow subscribers to create their own package by either choosing any 2 or 3 of OSA's core titles (as noted below) and then adding OSA's high-impact review journal, *Advances in Optics and Photonics* (AOP). A key benefit of subscribing to any one of OSA's E-Combination packages is that we include complimentary access to the extended backfile content for each journal included in the package subscribed to.

DIGITAL ARCHIVE PRODUCTS

OSA's Digital Archive products provide your patrons with perpetual access to high quality optics and photonics research published by the Society over the last 100 years.

The **OSA Centennial Archive** package includes content from 1917 to 2015 covering more than 256,000 journal and magazine articles as well as the conference proceedings from over 640 meetings.

The **OSA Digital Archive 1** package includes access to content published from 1917 to 2005, including 135,000 articles from OSA's core journals, its magazine, and the conference proceedings.

The **OSA Digital Archive 2** supplements the OSA Digital Archive 1, with access to an additional 121,000 journal, magazine and conference proceeding articles published between 2006 and 2015.

Journal Titles	Digital Archive 1 covering content from 1917–2005	Digital Archive 2 covering content from 2006–2015	Centennial Archive covering content from 1917–2015

[†]Individual Journal Digital Archive available (see page 16.)

If you need guidance on selecting the best package option for your institution, please contact your local sales representative. OSA now offers single-title Digital Archive products too, as noted on page 16.

NEW DIGITAL ARCHIVES AND OTHER PRODUCTS

Individual Journal Digital Archives

OSA also offers Digital Archives for some individual journals. You can purchase perpetual access to the archives of *Applied Optics*, *Optics Letters*, the *Journal of the Optical Society of America A* (JOSA A) or the *Journal of the Optical Society of America B* (JOSA B). Purchasing one or more of these Individual Journal Digital Archives ensures access to all the content in each journal from the first issue published through 2006.

For prices, refer to the price sheet or visit osapublishing.org/library.

Conference Proceedings Package

Select from several options to subscribe to OSA's conference proceedings, including: 1) the complete collection of papers from 700 proceedings; 2) the proceedings from the major meetings (CLEO, FiO, OFC) only; or 3) the proceedings to an individual meeting. A listing of each conference and its years of coverage can be found online at www.osapublishing.org/conferences.cfm.

FREQUENCY: **Over 30 new conferences to be added in 2018.**

PUBLISHER: **OSA**

ISSN: **2162-2701**

\$250–\$2,500 FORMAT VARIES DEPENDING ON THE PACKAGE

OSA Industry Development Associates (OIDA) Reports

OIDA produces market data reports on the current and future status of the industry and its various sectors. OIDA also creates roadmap reports that project the future of specific products and technology areas over a range of 1–10 years.

\$500–\$5,000 FOR EACH REPORT

AVAILABLE ON CD-ROM

See a full listing of reports at osapublishing.org/oida/reports.cfm.

eBooks

OSA Century of Optics

Presents a selection of people, events, and technologies that were important to the evolution of all fields in optics and photonics from 1916 to 2016.

\$99 ONLINE PDF

OPN Centennial Booklets

These four eBooklets tell OSA's story and where the society (as well as the optics and photonics field) is headed.

\$49 ONLINE PDF

Lasers

Anthony Seigman's gold-standard textbook on laser physics.

\$99 ONLINE PDF
